

CITY OF LODI

COUNCIL COMMUNICATION

AGENDA TITLE: PARKING TICKET COLLECTION

MEETING DATE: April 15, 1992

PREPARED BY: Finance Director

RECOMMENDED ACTION:

That the City Council authorize the City Manager to enter into an agreement with West Computil Corporation on behalf of the City to receive, maintain and collect **parking** tickets issued by the City. The contract with West Computil Corporation will be for a period of one year at a cost of \$1.10 per ticket.

BACKGROUND INFORMATION

In ~~November~~ 1991, the Lodi Municipal Court requested the Finance Department to assist the Court in determining what ~~actions could be taken~~ by the City and the Court to improve the efficiency in processing **parking** tickets. This request was based on the following concerns of the Court and the City:

- * Effective July 1, 1992, the Department of Motor Vehicles (DMV) will no longer accept "manual" DMV holds for unpaid **parking** tickets. DMV holds are issued to insure collection of **parking** tickets by preventing owners of vehicles with outstanding **parking** tickets from registering their vehicle. The Court does not have the equipment to issue computer generated DMV holds.
- * The time required by the Court to proms, maintain, and collect **parking** tickets distracts from other more pressing responsibilities and demands.
- * Normally the responsibility for collecting **parking** tickets belongs to the agency issuing the ticket. In Lodi, the City has been fortunate to have the cooperation and support of the Court in the collection of **parking** tickets. As such, the Court has assumed full responsibility for collecting, maintaining and processing **parking** tickets.
- * The cost in personnel time at the Court, Finance Department and the Police Department in processing, maintaining and collecting **parking** tickets is relatively expensive in relation to costs charged by collection agencies. The Court estimates that they employ the equivalent of one full time person to process, maintain and collect **parking** tickets. The Police and Finance Departments estimate they employ the equivalent of 1/2 person to proms **parking** tickets. This time equates to \$3.75 per ticket processed (assumes the average cost per employee is \$25,000 and the number of tickets processed is 10,000). This cost compared to \$1.10 per ticket quoted by West Computil Corporation demonstrates the greater efficiency of private enterprise to provide similar services.

Based on these concerns, staff contacted other local cities to discuss determine their procedures to collect, maintain and process parking tickets. (Stockton, Galt, and Manteca). Staff learned that these cities are currently using the services of West Computil to collect, maintain and process parking tickets.

COLLECTION AGENCY SERVICES

- Receive, maintain and collect parking tickets
- Provide a toll free 800 telephone number for customer inquiries
- * Conduct 'in-house' hearings for disputed parking tickets
- Schedule Court dates for violators as requested
- Provide courtesy notifications to violators that they have not paid their parking tickets
- Issue "computer generated" DMV holds
- * Provide the City and the Court with daily and monthly reports as to collection status, number of tickets issued and collected, number of tickets issued and collected by officer, etc.
- Deposit monies received on a daily basis

The cost for these services is \$1.10 per ticket processed. Considering the Court and City cost of \$3.75 per ticket processed staff concluded that the services or a collection agency is not only more efficient but they are also provide a higher quality of service based on the fact that they process the volume to purchase more efficient equipment and personnel specialized in processing parking tickets.

PURCHASING CONSIDERATIONS

Based on this information, staff contacted West Computil and requested a presentation for City staff and Court personnel as to the services they provide cities. The purpose of this presentation was to give the Court and City staff an opportunity to evaluate these services and to determine if contracting for these services would be advantageous. At the same time, Finance Department contacted two other parking collection agencies to obtain price quotes for parking ticket collection. The prices quoted by all three agencies for similar services were:

Company	Unit Price
West Computil	\$1.10 per ticket
Enforcement Tech	\$1.29 per ticket
Data Management Systems	\$1.50 per ticket

Three meetings were held between the Court, Finance and Police Department personnel in January and February to evaluate the advantages and disadvantages of contracting for parking ticket collection. It was concluded that contracting with a firm such as West Computil will improve the quality of service to violators, speed-up the collection process, reduce the number of uncollected tickets, and improve information for use by the Court and City staff as to collection procedures.

RECOMMENDATION

That the City Manager be authorized to enter into a contract with West Computil for a one year trial to receive, maintain, and collection of parking tickets issued by the City as specified in the attached agreement at a cost not to exceed \$1.10 per ticket. The total estimated cost to the City to be \$11,000.
